AUDITOR'S BIENNIAL REPORT.

AUDITOR'S OFFICE,
January 1st, 1892.

To His Excellency Governor J. M. Stone:

In accordance with legal requirement, I herewith submit to you, and through you to the Legislature, my reports of transactions had at the Auditor's office during the fiscal years of 1890–'91, beginning January 1st, and ending December 31st, respectively, both on receipt and disbursement account.

By reference to detailed report on receipt warrant account, it will be seen that as compared with last report for 1888–'89, the general business and number of transactions have increased considerably. During 1889 the total number of receipt warrants issued was 1,762, aggregating payments into the State Treasury of $1,151,055.10, whilst for 1890 there were issued 1,985 receipt warrants, covering into the State Treasury $1,251,693.64, the same being the total of receipts for those years. The receipts for 1891 are on a fair parity with those of 1890, as the same revenue regulations obtained for both years, receipts for 1891 being $1,273,845.42, exceeding those for 1890 by a few thousand dollars.

By reference to sundry items in the report the following summary will appear:

Total receipts for 1890	$1,251,693 64
Total disbursements for 1890	1,073,771 36
Excess of receipts over disbursements	$ 177,922 28
Total receipts for 1891	$1,273,845 42
Total disbursements for 1891	1,173,448 39
Excess of receipts over disbursements	$ 100,397 03

The chief sources from which this revenue was derived are:

State tax on advalorem for 1890	$ 572,134 45
State tax on advalorem for 1891	606,811 42
Privileges for 1890	$ 201,408 28

Privileges for 1891		174,350 37
License to retail for 1890	$	161,450 00
License to retail for 1891		157,812 50
Railroad tax for 1890	$	212,215 55
Railroad tax for 1891		167,274 95
Sundry items to general fund for 1890	$	52,163 61
Sundry items to general fund for 1891		97,690 38
Chickasaw school land sales for 1890	$	14,773 02
Chickasaw school land sales for 1891		3,721 92

The above shows a falling off in 1891 of receipts on privileges, liquor licenses and railroad tax, which are available funds for legitimate revenue, whilst the receipts from the sale of the Chickasaw School Lands, also smaller, pass to the credit of the Chickasaw School fund as an increment to the trust upon which interest is paid annually, thereby increasing the State's debt, as will be shown by the State Treasurer's report.

The decrease in railroad tax, as shown above, is owing to the fact that for the purpose of making up reports promptly and getting them ready for delivery at once after assembling of the Legislature, I deemed it advisable not to receive nor disburse monies after December 20, 1891. It is but proper and due the railroad, to say that the balance due is now in the hands of the State Treasurer, and will be paid in on January 1st, 1892. All the railroads are reported, except the Mobile and Ohio, and, as stated, its money, $45,620.10, is on hand, which added to amounts paid, will make the total for 1891, $212,895,05 on that account.

ASSESSED PROPERTY.

Val. of assessed realty, 1890	$116,079,457	at 4 mill levy,	$464,317 82
Val. of assessed personalty, 1890	49,767,877	at 4 mill levy,	199,071 61
	$165,847,334		$663,389 43
Val. of assessed realty, 1891	$116,697,035	at 3½ mills	$408,439 62
Val. of assessed personalty, 1891	50,412,468	at 3½ mills	176,461 13
	$167,109,503		$584,900 75

The above tables show the total valuations as appears by the assessment rolls of personalty and realty in the state, upon which direct levy is made for each fiscal year, and forms the basis of our revenue system. It will be observed that this does not show actual payment into the State Treasury *during* a fiscal period, but shows the amount chargeable against the property assessed for a given year.

A very large per cent. of the total amount due for a fiscal year and collected in December, is not paid in until January following, thus making a break in the status of fiscal conditions, tending to confusion and embarrassment of the understanding. I am glad, however, that a change ordered by the late Constitutional Convention in the fiscal year will lead, through proper legislation, to an adjustment of this trouble.

The railroad tax constitutes about fifteen per cent. of our aggregate revenue, and it will be well to state that two-thirds of this amount is not reckoned among the available funds for expenditure on public account. It has been suggested by many conversant with our fiscal affairs, that the State should appropriate half of this tax, distributing only the remainder. In this view I beg leave to concur, as it will give to many counties which have no roads in their borders, a more equitable share of the benefits of this fund.

INSURANCE.

I am not advised what action the Constitutional Code Commissioners have taken, and will present for the Legislature's consideration in regard to insurance regulations. I beg to suggest, however, the propriety of a system of reports for publication of the condition, assets, liabilities, capital stock, volume of business as a whole, and volume in this State as to risks, premiums, losses, etc., etc.

This requirement is made by nearly all the States of the Union, and I am constantly inquired of for reports of insurance business in Mississippi. There has been for some years past quite a fault-finding with foreign insurance companies on account of alleged injustice in premium charges, and a remedy has been sought by allowing the organization of local home companies, without any sort of restrictions beyond the mere procuring of a charter under a general statute. I beg to suggest that as insurance is for the benefit of the insured, chiefly, it is quite as obligatory to protect a policy-holder at the hands of a home as of foreign companies, and I see no reason why they should not be subjected to a general regulation, requiring them to furnish evidence of reliability in operating their business.

I am prompted to this particularly by the fact that several manifestly wild-cat concerns have procured charters, and attempted to do business in the State to her discredit. Honest institutions will not object to these restrictions—others dare not.

REVENUE AGENT.

I respectfully call attention to the desirability of placing the State Revene Agent on a substantial footing, by clothing him with ample power to discover all attempts at fraud upon our revenue by individuals or corporations, as well as shortages of fiscal officers, and to prosecute such delinquencies in a summary manner to final judgment and recovery. The service and need of such an officer is manifest by reference to his report appended and made part of this, wherein collections to the amount of $24,231.88 are shown to have been made during the last two years, coupled with the further fact that there is still, by his estimate, $135,000.00 clearly due, the collection of which is hindered by want of proper authority to enforce it.

In making collections of above amounts the Revenue Agent, it seems, by a decision of the Supreme Court, has transcended his authority and rendered himself and bondsmen liable to suit to recover amounts voluntarily paid as acknowledged dues to the State, etc., etc., by banks, corporations, liquor dealers, etc. I submit no greater credit can be done the Legislature by its own acts than to at once relieve him of all liability in this matter. The taxes *were due.* They *were paid.* No one is wronged.

There are many matters pertaining to our revenue system with which the law deals directly and not within the purview of assessor's duties. The following come under this head: Privileges, liquor licenses and corporation taxes. With these the law undertakes to deal in a manner different from that of the ordinary tax-payer, on real and personal property, of which the assessor is directed to take specific note. I see no reason why the Revenue Agent should not be given in charge for a fixed minimum per centage on collection, all suits against minor revenue officers upon report of delinquencies by the Auditor or Boards of Supervisors, to the Governor, instead of, as now, seeking to recover through the District Attorneys, most of whom are, or seem to be, unequal to the task.

It is manifest he can collect nothing not due, and will only collect through his own efforts such revenues as will otherwise be entirely lost to the State, counties and municipalities, and hence is an inexpensive agent in discharging his chief function, for which his commissions are twenty-five per cent., making a clear gain to the State, county or municipality, of seventy-five per cent. The whole of these amounts, as stated, without his aid would be a total loss, except to these revenue freebooters themselves, whom no law, it appears, can be made or framed to reach, notwithstanding the manifest intent and effort of the Legislature to do so. The judicial crucible is too severe.

ASSESSMENTS.

I am sorry to again have to call attention to the miserably insufficient manner in which assessments of property are made. For this, the fault lies primarily with the assessors, many of whom are incapable of doing the work required of them, as is plainly shown by their rolls. Next, the Board of Supervisors are blamable for allowing to pass as correct, work so palpably inaccurate and faulty. At present the Auditor has no authority to return a roll for correction, or hold any one responsible for non-compliance with law. This power should rest somewhere. As it is, the Assessor and Board of Supervisors are a law unto themselves, their miserable output a finality, though a fraud upon official duty. The assessor, though regarded a minor officer, has grave responsibilities devolving upon him, as he prepares the groundwork of the tax-collector and holds the balance of taxation in his hands as between citizens in contributing to the support of the government. Through him the burden may be thrown lightly upon some and heavily upon others. This may be done by competent men *viciously*, but it is not a public wrong when it can be prevented at the hands of incompetents by prescribing the requirements of competency, placing the office beyond their reach. If constitutional, I trust the Legislature will treat the case heroically.

STATE TAX LANDS.

In my last report I called attention to the holdings by the State of large quantities of tax lands improperly sold, and asked a remedial act. This was passed, and under it a large quantity was stricken from the records, relieving them of errors and rectifying titles of private owners by removing "clouds." The holdings now are greatly reduced, comparatively nominal.

I beg to suggest that you call special attention of the Legislature to the change made by the new Constitution in the fiscal year. Formerly the fiscal year was from January 1 to December 31, inclusive. Under the new Constitution it is from October 1, to September 30, inclusive, of the following year. To this end it is necessary that all laws touching revenues and appropriations shall conform. Formerly final settlements of tax collectors were required to be made in April for *ad valorem* taxes, and in May for privileges. The law governing this point should require final settlements of tax collectors to be made by the 10th of October on all accounts for matters of previous fiscal year. To prevent confusion, prompt and speedy action should be had by the Legislature, to the end that all tax collectors may be advised of the change in the law, and be enabled to act intelligently on this very important point.

In the matter of appropriations it will be noted that the Legislature will be required to make appropriations for the period between January 1, 1892, and September 30, 1892, for all accounts, the close of the fractional fiscal year. Again, appropriations must be made to cover the two years beginning October 1, 1892, and ending September 30, 1894, making total of time two years and nine months, the beginning and end of the time for which appropriations are noted in the act making the same.

I hope the fact that this is very important to prevent confusion and misapprehension, will be duly appreciated and receive prompt attention.

Respectfully submitted,
W. W. STONE,
Auditor Public Accounts.

REPORT FOR 1890.

REPORT OF STATE REVENUE AGENT.

OFFICE OF STATE REVENUE AGENT,
JACKSON, MISS., Dec. 31, 1891.

Hon. W. W. Stone, Auditor of Public Accounts:

SIR.—In compliance with law, I beg to submit the following report of the business of this office:

Of revenue improperly withheld, the amount collected is $24,231.88. I have moreover discovered large amounts due the State, county and city treasuries, the collection of the greater portion of which, has for the time been suspended, owing to the recent decisions of the Supreme Court, and the balance of which is in process of collection, either by suit or amicable adjustment and settlement.

The collections are as follows:

From C. C. Kelly, banker	$ 2948	43
From Grenada Compress Company	250	00
From Capital State Bank	1457	50
From Bank of Oxford	1043	81
From Columbus Insurance and Banking Company	5773	11
From Jackson Gas Light Company	3484	58
From Columbia Fire and Marine Insurance Co.	1000	00
From Geo. S. Irwin & Co., Grocers	150	00
From County of Bolivar	6663	78
From County of Tallahatchie	1460	67
Total	$ 24,231	88

Of the sums collected, I have paid into the State Treasury on Auditor's warrants as follows:

Attala county, C. C. Kelly	$ 417	99
Grenada county, Compress	60	00
Hinds county, Bank and Gas Company	820	75
Lafayette county, Bank	120	97
Lowndes county, Columbus Insurance and Banking Company	564	61
Union county, Columbia F. & M. Insurance Co.	750	00
Warren county, Irwin & Co., Liquor	112	50

Bolivar county		1151 99
Total	$	3998 81

Into the County Treasuries as follows:

Attala county, C. C. Kelly	$	794 30
Bolivar county		3497 84
Grenada county, Compress		127 50
Hinds county, Bank and Gas Company		2488 38
Lafayette county, Bank		316 26
Lowndes county, Insurance and Banking Co		787 50
Total	$	8011 78

Into City Treasuries:

City of Kosciusko, C. C. Kelly	$	999 03
City of Jackson, Bank		397 50
City of Oxford, Bank		345 64
City of Columbus, Insurance and Banking Co		2977 73
Total	$	4719 90

Into Levee Treasuries:

Construction tax	$	347 99
Yazoo Delta Levee		1095 51
Total	$	1443 50

As you will note above, a very large portion of the collections made through this office, have been made from corporations, and in a single instance, from individuals. Under Section 3, Acts 1890, I construed the general powers therein granted, as empowering the Agent to investigate corporations and property, where there were reasons to believe they had, or were now escaping taxation, and to collect the same, whenever found to be due, as well as to collect from individuals or firms, all privileges, fines and forfeitures found to be due the State on account of a failure to report or pay the same. Hence the collections above reported, and the devotion of so much time to this branch of the business.

So impressed was I with the justice of the State's claim, in every instance where upon investigation I found various amounts (and in many instances, large amounts) due for taxes upon property that had heretofore entirely escaped the assessor or sheriff for years back, that I did not hesitate to make demands for immediate settlements, and upon the first refusal, both of corporations and individuals, who had failed to pay the proper privilege, to bring suits to recover. In the discharge of what I conceived to be my duty, I have prosecuted several appeals to the Supreme Court, but so far have been unfortunate, in that every case has been decided adversely to the State's interest. These decisions have suspended further collections, the court holding in the cases where an ad valorem tax was found to be due, that an assessment was necessary to charge the property with the taxes, and that the agent *had no power* to assess, even though the property had escaped the regular constituted officers; and in cases of delinquent privileges and licenses, before the agent could demand and collect the amounts due from individuals, he must show that the officers had failed or refused, or neglected to perform their duties, etc., which would necessitate in averment of knowledge of the delinquency by the officer an each individual case. This in a very large majority of the cases, would be impossible.

The result of these investigations, so far, show the amount due by corporations and property for taxes uncollected, to be something over $50,000, while the amount due, directly to the State, on account of the illegal sale of liquors, is about $85,000.

While of course some of this could not have been collected, on account of the insolvency of the individuals, I am convinced, had I the power, more than three-fourths of the amount could have been collected, and paid into the proper treasuries.

As the law now stands, and the powers of the Revenue Agent are construed by the court, these amounts are likely to prove a total loss, and I would therefore earnestly recommend such change or amendment, within constitutional limits, as intimated by the court in its various opinions, as will empower these collections, and materially increase the revenues of the State.

As doubt has been expressed as to the retroactive features of the law, I would also recommend that this be made clear by amendment, as everything discovered through the office is on account of past years, and in no instance, pending the fiscal years, the investigations are made.

Respectfully,

WIRT ADAMS,
State Revenue Agent.

AGGREGATE STATEMENT SHOWING CONDITION OF BANKS (STATE) IN MISSISSIPPI ON SEPTEMBER 5, 1891.
